AMNA IMRAN MUGHAL

SOFTWARE ENGINEER

SUMMARY

Entry-level Software Engineer with a foundation in programming, web development, databases, and software development principles. Eager to begin a professional career in the UAE and gain hands-on experience in a dynamic technology environment. A quick learner with strong problem-solving, communication, and teamwork skills, willing to learn new technologies and contribute to real-world projects. Seeking a Junior Software Engineer, Software Developer, IT Trainee, or Internship opportunity in the UAE to develop technical expertise and grow within the organization.

WORK EXPERIENCE

Junior Software Engineer
NEXA SOFT SOLUTIONS – Karachi, Pakistan
January 2025 – August 2026

- Assisted in developing and maintaining web-based business applications.
- Worked on front-end development using HTML, CSS, JavaScript and responsive design techniques.
- Supported back-end development and database integration.
- Identified, troubleshot and resolved application bugs under senior developer supervision.
- Participated in application testing, debugging and performance improvements.
- Used Git for source-code management and team collaboration.
- Assisted with implementation of new application features based on client requirements.
- Prepared basic technical documentation and provided application support.

Software Developer Intern
CODE BRIDGE TECHNOLOGIES – Karachi, Pakistan
January 2024 – December 2024

- Assisted the development team with website and software development projects.
- Created and modified web pages using HTML, CSS and JavaScript.
- Worked with databases including data entry, queries and basic database management.
- Performed functional testing and reported software defects.
- Assisted senior developers in troubleshooting technical issues.
- Participated in team discussions and project requirement reviews.

- Gained practical knowledge of the software development lifecycle (SDLC).
- Learned coding standards, version control and software testing practices.

IT & Software Trainee
TECH NOVA SYSTEMS – Karachi, Pakistan
July 2023 – December 2023

- Supported basic software installation, configuration and troubleshooting activities.
- Assisted with internal web and software-related tasks.
- Learned programming fundamentals and database concepts through practical assignments.
- Supported testing and documentation of software applications.
- Assisted the technical team with day-to-day IT and application support.
- Developed practical knowledge of professional software development environment.
